## SUMMARY

Proactive Full Stack Developer with expertise in Angular, Spring Boot, and PostgreSQL, skilled in developing robust applications. Experienced in integrating back-end solutions with high-performance RESTful APIs and designing user-friendly interfaces.

## EXPERIENCE

### LEADWINNER CORP, HYDERABAD, TG

#### SOFTWARE DEVELOPER

Jan 2023 – Present

- Developed scalable web applications using Angular, Spring Boot, and PostgreSQL, enhancing system performance and responsiveness by 30%.
- Built and optimized monolithic architecture using Spring Boot, ensuring simplicity, reliability, and maintainability in application design.
- Designed and deployed responsive user interfaces with Angular, boosting user engagement and enhancing cross-platform experiences.
- Integrated payment gateways such as Razorpay, streamlining transactions and increasing customer satisfaction by 20%.

## PROJECTS

### SQUARE UP Jan 2023 – Oct 2023 | Financial Solutions

- Square Up is a comprehensive solution developed to optimize fund tracking processes for government departments and their respective authorities.
- Integrated seamlessly with two external systems, PFMS (Public Financial Monitoring System) and multiple banks, enabling efficient and accurate financial transactions.
- Build a dynamic dashboard for real-time transaction monitoring and data visualization.
- Reduced page load times by 40%.

### VMFMS Nov 2023 – Oct 2024 | State-level Fund Management

- FundTrack serves as a robust platform for implementing state-level schemes, effectively bridging operations between state and district levels.
- State officials use FundTrack to distribute funds, which district officials utilize to make payments to vendors and beneficiaries.
- Integrated the platform with multiple banks for streamlined API integration, ensuring smooth financial transactions.
- Developed and configured API endpoints to enable seamless communication between systems.

### EASYECARTS Nov 2024 – Feb 2025 | E-commerce Platform

- Built a scalable back-end architecture using Spring Boot and JPA to handle high-volume traffic efficiently.
- Implemented a seamless checkout process with secure payment options and optimized user experience.
- Developed an admin panel for inventory management, sales analysis, and user account monitoring.

## SKILLS

### PROGRAMMING LANGUAGES

Java • C • JavaScript • TypeScript • SQL

### UI TECHNOLOGIES

HTML • CSS • Bootstrap

### FRAMEWORKS

Spring • Spring Boot • Hibernate  
• Angular

### DEVELOPMENT TOOLS

Git • GitHub • Postman • IntelliJ IDEA  
• Maven • Visual Studio Code • Azure

### DATABASES

PostgreSQL • Oracle • MongoDB

## EDUCATION

### YESHWANTRAO CHAVAN

#### COLLEGE OF ENGINEERING,

NAGPUR | B.E, CIVIL ENGINEERING

Graduated June 2022 | CGPA: 7.19

## COURSEWORK

### TRAINING

Core Java, Advanced Java, Spring, Springboot, Microservices and Oracle.  
Completed training at Sathya Technologies as a Full Stack Developer  
(June 2022 – Dec 2022)

## LANGUAGES

**English:** Professional Proficiency

**Hindi:** Professional Proficiency

**Marathi:** Professional Proficiency

## INTERESTS

Cricket

Playing E-sports Games

Developing Web Applications
